**Position:** Student within project “Phase microscopy and tomography – new approach to 3D measurements of biological and technological structures (3DPHASE)”.

**Number of stipends:** 1

**Institution:** Photonics Department / Institute of Micromechanics and Photonics / Warsaw University of Technology / Warsaw

**Maximum period of stipend agreement:** 5 months

**Position starts on:** 1.11.2012

**Stipend’s amount:** 1000 PLN/month

**Key responsibilities include:**

1. Responsibilities related to development of phase microscopy or optical tomography systems for phase microobjects (technological or biological), responsibilities can include scientific, programming, construction or metrological tasks
2. Responsibilities can be connected to diploma or intermediate Project within student course

**Profile of candidates:**

1. The offer is directed to students master's level (completed engineering or bachelor degree)
2. Student of technical or physics field
3. Knowledge of English allowing understanding the scientific literature

**Required documents (in English) :**

1. CV
2. Motivation letter
3. Transcript of records from engineering and master courses
4. References

**For more details about the Team 3DPHASE project please visit:** [3DPHASE.mchtr.pw.edu.pl](http://3DPHASE.mchtr.pw.edu.pl)

**Team Leader:** prof. dr hab. Małgorzata Kujawińska

**Address for applications:** [zif@mchtr.pw.edu.pl](mailto:zif@mchtr.pw.edu.pl)  
 (“3DPHase\_TEAM – student” should be given as a message subject)

**Closing date:** 15.10.2012

**Please include in your offer:**

"In accordance with the personal data protection act from 29 th August 1997, I hereby agree to process and to store my personal data by the Institution for recruitment purposes”.

**The granting institution may seek to contact the best candidates only**
